Investment Objective

The First Trust SMID Cap Rising Dividend Achievers ETF (the "First Trust ETF") will seek to replicate, to the extent possible, the performance of an index of U.S. small and mid cap companies, net of expenses, initially the Nasdaq US Small Mid Cap Rising Dividend Achievers™ Index (the "Index"). The investment strategy of the First Trust ETF is to provide exposure to the Index by holding securities of First Trust SMID Cap Rising Dividend Achievers ETF ("SDVY"), a U.S.-listed index ETF which is managed by an affiliate of the Manager which seeks to replicate or substantially replicate the performance of the Index.

Potential Advantages

DIVIDEND GROWTH | Every company must have paid a dividend in the trailing twelve-month (TTM) period greater than the dividend paid in the TTM period three and five years prior. A company's ability to reliably increase its dividend can be an indication of its financial strength and discipline.

EARNINGS PER SHARE (EPS) | Every company must have positive EPS in the most recent fiscal year greater than the earnings per share three fiscal years prior. EPS is very important to dividend growth because without growth in EPS, there cannot be sustainable growth in the dividend.

CASH TO DEBT RATIO | Every company must have a cash to debt ratio greater than 25%. Cash to debt ratio compares a company's cash and short term investments to its debt to provide an indication of the company's ability to cover debt with cash on its balance sheet. The higher the percentage ratio, the better the company's ability to carry its debt.

PAYOUT RATIO | Every company must have a TTM payout ratio no greater than 65%. Dividend payout ratio is calculated as annual dividend per share divided by earnings per share and provides an idea of how well a company's earnings support its dividend payments.

Risk rating

FT Portfolios Canada Co. has rated the volatility of this ETF as **high**. Because this is a new ETF, the risk rating is only an estimate by FT Portfolios Canada Co. Generally, the rating is based on how much the ETF's returns have changed from year to year. It doesn't tell you how volatile the ETF will be in the future. The rating can change over time. An ETF with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the ETF's returns, see the Risk section of the ETF's prospectus.

Annualized Performance	1-month	3-month	6-month	YTD	1-year	3-year	5-year	10-year	Since Inception
NAV (Units) ³	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a	n/a

¹The First Trust ETF will invest in the underlying U.S. ETF First Trust SMID Cap Rising Dividend Achievers ETF and accordingly the First Trust ETF will also bear the management fee (being 0.60% per annum on the net asset value of the applicable underlying Fund) which is payable on the portion of its portfolio assets invested in the underlying fund. Accordingly, the total management fee borne by Unitholders in connection with their Units will be 0.75% per annum of the NAV of the Units.

²Distribution rate is calculated by dividing the most recent annualized distribution paid or declared by the Net Asset Value. Distribution rates may vary. The distributed amount may include return of capital (ROC) from time to time.

³Inception date of SDVY is September 9, 2024 and Canadian securities law does not allow for the display of fund performance data less than one year old.

First Trust SMID Cap Rising Dividend Achievers ETF

PORTFOLIO CONSTRUCTION

NASDAQ US SMALL MID CAP RISING DIVIDEND ACHIEVERS™ INDEX CONSTRUCTION PROCESS

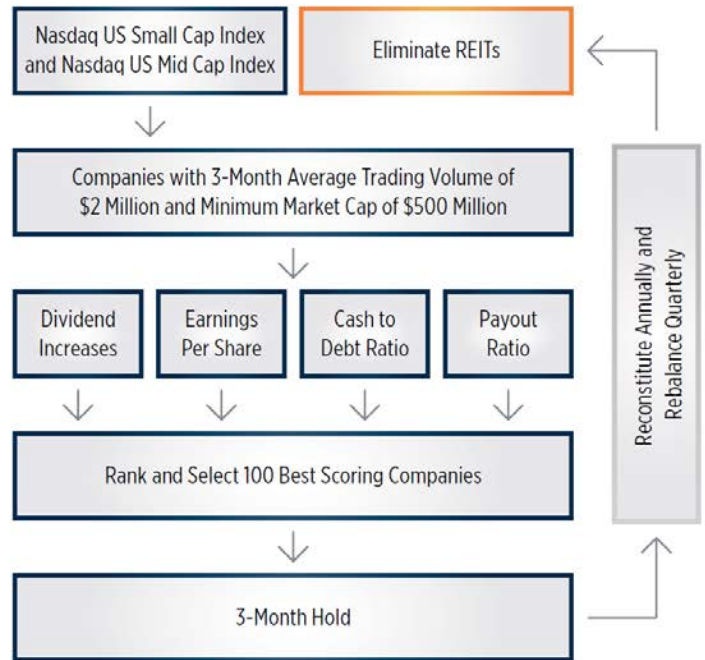

The Nasdaq US Small Mid Cap Rising Dividend Achievers™ Index is comprised of 100 companies with a history of raising their dividends. These companies also exhibit the characteristics to continue to do so in the future. The index construction process creates what we believe is an attractive blend of historical and forward looking screens intended to measure a company's ability to grow its dividend, along with its share price.

UNIVERSE | According to the index provider, begin with the Nasdaq US Mid Cap Index and the Nasdaq US Small Cap Index and eliminate those companies classified as a Real Estate Investment Trust (REIT) by the Industry Classification Benchmark. The companies with a minimum three-month average daily dollar trading volume of \$2 million are considered.

EXAMINE HISTORICAL FINANCIAL RESULTS | Every security must have a minimum market capitalization of \$500 million and must meet stringent eligibility criteria. Historical dividend increases, earnings per share, debt ratio and payout ratio are examined.

SELECT COMPANIES WITH LOWEST COMBINED SCORE | Eligible securities are ranked by a combined factor of dollar dividend increase over the previous five year period, current dividend yield, and payout ratio, subject to a maximum of 30% from any one sector and 75% from the mid cap or small cap size classification.

EQUALLY WEIGHT AND REPEAT QUARTERLY | The index is equally weighted on each rebalancing effective date. The index is reconstituted annually and rebalanced quarterly.

About First Trust

First Trust Canada is the trustee, manager and promoter of the fund. First Trust Canada and its affiliates First Trust Advisors L.P. ("FTA"), portfolio advisor to the fund, an Ontario Securities Commission registered portfolio manager and U.S. Securities and Exchange Commission registered investment advisor, and First Trust Portfolios L.P. ("FTP"), a FINRA registered broker-dealer, are privately held companies that provide a variety of investment services. FTA has approximately US \$245.21 billion in total assets under supervision or management.

Commissions, management fees and expenses all may be associated with ETF investments. Please read the prospectus before investing. The indicated rates of return are the historical annual compound total returns including changes in the unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by the unitholder that would have reduced returns. ETFs are not guaranteed, their values change frequently and past performance may not be repeated.
