## Investment Objective

The **First Trust AlphaDEX™ U.S. Industrials Sector Index ETF (the "First Trust ETF")** seeks to replicate, to the extent possible, the performance of the StrataQuant® Industrials Index (the "Index"), net of expenses. The investment strategy of the First Trust ETF is to invest in and hold the constituent securities of the Index in the same proportion as they are reflected in the Index or securities intended to replicate the performance of the Index. The Index employs the **AlphaDEX™ methodology** to select stocks from the Russell 1000® Index that are within the industrials/producer durables sector. The Russell 1000® Index is a market index representing the large- and mid-capitalization segment of the U. S. equity universe. The First Trust ETF will generally seek to hedge substantially all of its U.S. dollar currency exposure associated with its portfolio investments in respect of the hedged units back to the Canadian dollar.

## Key Features

- Full transparency
- Intraday liquidity
- Diversification
- May reduce U.S. estate tax obligations and T1135 requirements

## Risk rating

First Trust Portfolios Canada has rated the volatility of this ETF as **medium to high**. This rating is based on how much the ETF's returns have changed from year to year. It doesn't tell you how volatile the ETF will be in the future. The rating can change over time. An ETF with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the ETF's returns, see the Risk section of the ETF's prospectus.

### AlphaDEX™ U.S. Industrials Sector Index Methodology

The indexes which provide the basis for the AlphaDEX™ exchange-traded funds start with a broad-based index and are enhanced through the use of the proprietary AlphaDEX™ stock selection methodology. This methodology is designed to use value and growth factors to select and weight stocks based on their investment merit. The methodology used to select the stocks for the indexes is described in the chart below.
